

POPULATION

By

Dennis Harvey

A Rising Population

- Reduces biodiversity (species extinction) by destroying / polluting habitat needed by other creatures
- Depletes the earth's finite resources by consuming faster than the replenishment rate

POPULATION MATTERS

Patrons

- UK charity
- Formed 1991
- c 3000 members

for a
sustainable
future

Recommendation

- Have smaller families spread over a longer period of time

Implementation

- Raising awareness of problem of unbridled human population through education
- Encouraging education on types of family planning available
- Encouraging worldwide access to family planning services

Local implementation

- Talk about the issue with your family
- Write to your MP
- Circulate document from Gruff on population
- Create DEF letter to MP
